Warm Smile, Quality Care to Greet Makhni Patients

Parveen Makhni, M.D., Opens Internal Medicine Practice in Jasper

JASPER, TN – With her warm smile and pleasant manner, Parveen Makhni M.D. brings extensive experience and her Internal Medicine specialty practice to the Sequatchie Valley.

Dr. Makhni, board certified in internal medicine, opened her practice recently in the Grandview Medical Office Building. As an internal medicine specialist, she focuses on the early diagnosis and treatment of complex health problems and illnesses that occur simultaneously in adults. She is qualified to treat a variety of medical conditions, including diabetes, hypertension, high cholesterol, osteoporosis, women's health issues, and many more. Dr. Makhni is also a strong advocate of healthy living and preventative care.

"This is where I want to be," Dr. Makhni said. "I've lived in Florida for many years, but I have always loved Tennessee and wanted to live in an area with beautiful mountains, views, and seasons. The people are so friendly, and I'm very excited to be part of this community."

Before opening her practice here, Dr. Makhni was on staff at Port St. Lucie Medical Center in Port St. Lucie, Fla., and Lawnwood Regional Medical Center in Fort Pierce, Fla., for over 24 years. In Port St. Lucie, she served on the hospital's credentialing and

quality assurance committees.

She is also co-owner of Makhni Cardiology and Medical Associates with her husband, cardiologist Dr. Malvinder Makhni, who also now practices in the area.

Dr. Makhni is a proponent of community health education and hopes to soon hold health screenings and other educational components she feels are important to communities.

"In addition to clinical treatment, it is important that communities become educated on what good health really means to them in terms of better quality of life," Dr. Makhni said. "The goal for all of us should be to do what we can to prevent illness."

Dr. Makhni and her husband have three children, two of whom have graduated from MIT and are now earning medical degrees from Harvard Medical School in Boston, Massachusetts. The third child is currently studying at MIT.

She enjoys traveling with her husband, reading, and community service. In addition, she has been a Red Cross volunteer for medical services and disaster relief as well as a judge for regional and international science and engineering fairs.

"To have Dr. Makhni attend to patients in this area is a real advantage for all concerned," said Bruce Baldwin, Grandview Medical Center CEO.

Dr. Makhni's now accepting patients by physician referral. Her office is located in the medical office building at 980 Hwy. 28 in Jasper and she may be reached by calling 423-942-3409.

About Grandview Medical Center

Grandview Medical Center, a member of Capella Healthcare's family of hospitals, is a fully accredited 70-bed licensed hospital located in Jasper, Tenn. The hospital serves Marion, Sequatchie counties in Tennessee and north Jackson County in Alabama. Grandview Medical Center also operates the Marion County Ambulance Service; North Valley Medical Plaza, a 24-hour emergency department and outpatient clinic in Dunlap; and Mountainview Treatment Center, an adult inpatient psychiatric program located on the grounds of Grandview Medical Center.
