

Here's to a Healthier Sequatchie Valley Region

At Grandview Medical Center, our goal is to deliver the best healthcare available in the Sequatchie Valley Region as we seek to exceed the expectations of all those we serve. With the help of dedicated physicians, employees, volunteers and Board members, along with your continued support and encouragement, we continue our passionate pursuit of excellence by doing good work with a worthwhile purpose.

While delivering quality healthcare is the single most important contribution we make, there are many other ways we make a positive impact on the communities we serve. Here are a few of the other ways we are making a difference.

Capital Improvements

In 2010 we upgraded mammography services with a GE Digital Mammography Unit, along with many other improvements within the Radiology department. We upgraded our Central Monitoring Systems for our Critical Care Patients and replaced two aging ambulances with two improved ambulances providing service for all of Marion County.

In fact, we invested approximately \$1 million in our facilities last year which, in addition to the above, included technology replacement, information technology additions/updates, and routine facility upkeep and maintenance.

Contributing To Our Local Tax Base

Last year, Grandview Medical Center paid over \$591,000 in taxes which helped to support our city, county and state. This included sales taxes as well as property taxes. These dollars help to support local schools, development of roads, recruitment of business and industry, and other needed services.

Helping Those In Need

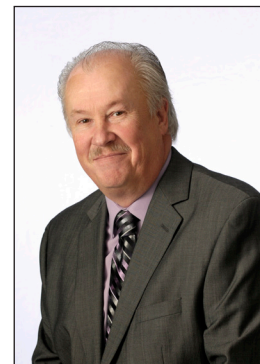

Grandview Medical Center provided over \$82 million in uncompensated care last year, which included the amounts not covered by government-sponsored programs such as Medicare and Medicaid. This amount also includes more than \$13.6 million for charity care, discounts for the uninsured, and bad debts, incurred as we cared for many people without sufficient resources.

Adding New Physicians

During the past 18 months, Grandview Medical Center added nine new physicians to our highly respected medical staff, including specialists in cardiology, cosmetic surgery, general surgery, gynecology, internal medicine, orthopedics, podiatry, psychiatry, and pulmonologist. This represents a significant investment in the health care services offered in the Sequatchie Valley.

One Of Our Community's Major Employers

Providing an annual payroll of over \$16.3 million to 319 employees, Grandview Medical Center is one of the largest employers in this region. We thank you for choosing us for your healthcare needs. With your support, together we can continue making healthcare and our community better.

Bruce Baldwin, CEO
Grandview Medical Center
